### **Election/Restrictions**

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-6, drawn to a method for assembling a rotor of a power transmission device, classified in class 29, subclass 434.
  - II. Claims 7-9, drawn to a sliding structure of a rotor and an oscillator, classified in class 475, subclass 178.
2. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as an assembling process and a product made. The inventions in this relationship are distinct because the product, as claimed, can be made by different process (MPEP § 806.05(g)). In this case the sliding structure of a rotor and oscillator can be assembled using the method as disclosed in U. S. Patent No. 5,286,237 to Minegishi.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
3. A telephone call was made to applicant's representative on 06 August 2004 to request an oral election to the above restriction requirement, but did not result in an election being made.
4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 3681

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David D. Le whose telephone number is 703-305-3690. The examiner can normally be reached on Mon-Fri (0700-1530).
